

The INTERNATIONAL PROPELLER CLUBS

Established in 1986 in Genoa, The International Propeller Clubs has 24 Clubs in Italy, with a total of 1,300 members, engaged in the logistics, shipping and transportation sectors

Mission and Goals

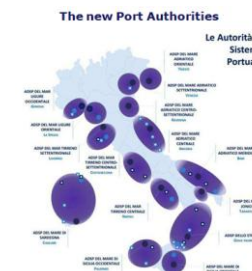

- To promote, further and support merchant maritime activities in order to improve human and international relations;
- To promote trade, public relations and a spirit of friendship between professionals and entrepreneurs in the world of shipping, logistics and transport;
- To encourage the formation and updating technical, cultural and professional relationship between all members of the economic and professional activities related to national and international maritime transport;
- To promote the meeting of people, whose joint efforts will enable the achievement of specific objectives, also in collaboration with other national or international organizations with similar purposes;
- To coordinate the activities and the exchange of programs, news, information between the Propeller clubs and their own members.

ITALIAN MARITIME CLUSTER MISSION : HONG KONG AND SHENZHEN

A new Port reform, passed late 2016, has given a new modern structure to the Italian port system and is part of a national strategic and logistic plan designed to boost development to the economy and to foreign trade through modernization of transport, logistics and services

- Meetings of the Italian maritime cluster with local authorities and operators to explain the new Italian port scenario after the Minister Delrio's Reform of the Italian Ports System
- Visit to the Shenzhen Special Economic Area, also in view of the establishment of Special Economic Zones (ZES) in Italy: meetings with the Shenzhen authorities

Participants:

Organized and coordinated by Propeller National President Umberto Masucci and Propeller National Vice President Riccardo Fuochi, the delegation is composed by: Propeller members from several clubs, Presidents of the Ports of Genoa, Naples and Taranto, SRM (Mediterranean Observatory and Research Institute), Presidents of Shipping Associations (Assagenti and Spediporto) and Maritime companies
