### **2009-2010 ICAO Technical Instructions and 50<sup>th</sup> Edition IATA Dangerous Goods Regulations (2009)**

The 2009-2010 Technical Instructions (TI) and the 2009 Dangerous Goods Regulations (DGR), the industry version of TI, will become effective on 1 January 2009.

As the TI are legal basis of the CAP 384 Dangerous Goods (Consignment by Air) (Safety) Ordinance and the Air Navigation (Dangerous Goods) Regulations under Schedule 16 of CAP 448C Air Navigation (Hong Kong) Order 1995, you are advised to purchase the new edition of the ICAO TI, or IATA DGR. To assist your early preparation, a list of major changes has been prepared and uploaded in <http://www.cad.gov.hk/english/news.html>. As the list is not exhaustive, please refer to the official TI or DGR for compliance matters.

By copy of this letter, the industry associations and training institutes are requested to disseminate this information to your association members and students for their reference.

Yours sincerely,

(Patrick TSE)

for Director-General of Civil Aviation
