

Free Webinar “DG Awareness with a Focus on CBTA”

Date: 11 Nov 2022 (Fri) Time: 10am via Microsoft Teams

Language: Cantonese supplemented with English ppt

Speakers: CLG & CAD Representatives

Registration Deadline: 03 Nov 2022 (Thu)

AIMS

In view of latest changes in the requirements of shipping dangerous goods (DG) including **lithium batteries by air and the impending Competency-based Approach to Dangerous Goods Training and Assessment (CBTA)** (effective from 01 January 2023), Carrier Liaison Group (CLG), Hongkong Association of Freight Forwarding and Logistics (HAFFA), The Hong Kong Shippers' Council (HKSC) and the Transport and Logistics Training Board – Vocational Training Council (VTC) would like to invite stakeholders of the industry to attend the free webinar receiving the latest update on lithium battery requirements so as to enhance handling in cargo operations. Representatives from the Civil Aviation Department (CAD) and CLG will provide attendees an overview of the 2023 requirements of shipping DG including **lithium batteries by air and the impending CBTA**. Considering that undeclaring, mis-declaring, mis-handling and improper shipping of DG including lithium batteries by air might cause serious consequences, the webinar aims at providing updates on the latest DG requirements in Hong Kong and raising the awareness of the industry, thereby enhancing safety in air cargo transport and maintaining a good reputation of the Hong Kong air cargo industry.
